## Contents

### Virtual scenarios

- ▶ [Domestic Installation \(Part 1\)](#)
- ▶ [Domestic Installation \(Part 2\)](#)
- ▶ [Commercial Installation](#)

## Learning outcomes

By completing this program, it is expected that learners will:

- Have a greater understanding of Electric Vehicle Charge Point installation principles and concepts.
- Have increased confidence when working with Electric Vehicle Charger installation equipment.
- Develop a systematic approach to inspection and testing.
- Increased competence in successful installation of an EVC that conforms to best practices and industry standards.

## Qualifications supported

This program has been designed by our partners to align with:

- LCL Awards Level 3 Award in the Installation and Commissioning of Electric Vehicle Charging Equipment in Domestic, Commercial and Industrial locations
- City & Guilds: Electric Vehicle Charging Installations
- EAL: Level 3 Award in the Requirements for the Installation of Electric Vehicle Charging Points

## Program Partners
